

### About Us

Amoroso Cabinetry has been partnering with builders, contractors, and homeowners in the Tampa Bay area for over nine years and was recently named a finalist for the 2007 Brandon Chamber of Commerce Small Business of the Year award.

We offer a staff of in-house designers who will design the project and provide you with complete detailed drawings. Our designers will turn your ideas into reality.

Our focus is custom room design featuring made-to-order cabinetry for kitchens, baths, home offices, and all other areas of the home. We will give you the caring, personal attention you deserve and keep you apprised of our progress.

Whether creating Contemporary, Country, Traditional, or anything in between, Amoroso Cabinetry offers innovative and fashionable products, design flexibility, quality construction, and exceptional service at affordable prices.

## Our Wholesale Program

### How it works:

The less help you need, the more you save. Simply pick the pricing level that best suits your needs.

#### Price Level 1

- Contractor to provide a detailed parts list
- Amoroso Cabinetry will order and deliver direct to the job site or to your storage facility

#### Price Level 2

- Contractor to provide detailed dimensions of project
- Amoroso Cabinetry will design, order, and deliver direct to the job site or to your storage facility

#### Price Level 3

- Full service design and measuring service
- Amoroso designer will meet with customers for door style and color selection
- Coordination of delivery to job site with contractor/homeowner
- Cabinet installation to be provided by Amoroso Cabinetry

*~Interest-free financing available ~*

## Partnership Incentives

### MBA Program

- Marquis Builder Alliance (MBA) program rewards you for your continued business
- 10% off your first purchase
- Earn points for all the cabinets you purchase
- 50 bonus points for joining the program
- Model discounts

Amoroso Cabinetry applies our extensive knowledge and experience to guide builders and contractors from the initial measure, to the design phase, and through the coordination of counter tops and hardware selection.
